Jan. 27 - Flight from Washington & Tuling to San Francisco. In deciderous freet country a light snow fall brings out some differences That are much less ofrious Licat without it. Open grass and cultivated land stands out sharply in white Hecidenous words of varying dessities show as grays of varying densities the showing relief as a pattern, and patches of evergreen friest are very dade green. In generally cultivated country large patche of open, may represent hilly or dissected land, Conspicuous examples 17-15 minutes (60 mint?) east of Tulsa around an extensive winding and branched reservin much more wooded land to south of route. Winding dark strips in snow represent navines and gallery freet along streams. Dredge (gold?) working Easty, Toulsa.

Fosbergs insects from the Marshall Islands, February 1956.

- 1. Anta, collected in Guest house, Kwajalein Islat, Kwajalein Atoll. (attracted by liqueur left in glasses.)
- 2. "Brown widow" spider, found in house of Cmdr. White, who says it is fairly common, but no bites reported recently. Kwajalein Islet, Kwajalein Atoll.
- 5. Long horned grasshopper nymph, found in bouquet of flowers on table, Likiep Islet, Likiep Atoll.
- (4. crabs from Rongelap I., Rongelap Atoll).
- 5. Two grasshpppers attracted to lights, Rongelap Islet, Rongelap Atoll.
- 6. Ants and reach from ground, fly attracted by sweat, weevel picked up on clothing while going through brush, Rongelap Islat, Rongelap katan Atoll.
- (7. hermit crab from Ailinginas Atoll)
- (8. Gecke, Eniastok I., Rongerik Atoll).
- 9, 10, 11. Insects attracted to light in house in village, Uterik Islat,
 Uterik Atoll (ants on ground in house, seemingly indifferent to light).
- 12. Insects associated with Pisonia tree trunk (mosquito larvae in water in hole in trunk, grasshopper not especially associated with anything), Sife Islet, Ailinginae Atell.
- 13. Spider, Sife Islat, Ailinginae Atoll.
- 14. Two beetles and adult grasshopper, Sife Islet, Allinginae Atell.
- (15. Hermit grab, tup of beach, Gigen Islet, Rongelap Atoll.)
- 16. Kylocopa which atung a man on Kwajalein Islet, Kwajalein Atoll.

The numbers for crabs, geckes, etc., in () merely included to make the series complete, but are being taken to Washington. Sometimes two numbers are in same bottle, but I think from notes it will be easy to associate numbers with proper insects.
